What is Considered a “Close Contact”? 😊

- Were you within 6 feet of an infected person?
- Were you with the person for a total of 15 minutes or more?
- Were you with the individual 2 days prior to illness onset or test specimen collection?

If you answered YES to these questions, please contact Deb Baker, RN or Ericka Blyther, RN for further instructions.

The Next Step:
- Quarantine for 10 days regardless if you have symptoms or not
- On day 11 you can test at the Carr Hall Testing Center
- You may return to campus once you have received a negative test result.

Decrease the Spread

Be in a well ventilated space
Sanitize surfaces often
Remain 6 feet apart from others
Wear a mask covering your nose and mouth in public places

QUESTIONS:

Students contact Health Services at healthservices@baypath.edu
Employees contact Erica Blyther, RN at eblyther@baypath.edu
