Updated Information for Travelers

- Fully vaccinated travelers are less likely to get and spread COVID-19.
- People who are fully vaccinated with an FDA-authorized vaccine can travel safely within the United States:
  - Fully vaccinated travelers do not need to get tested before or after travel unless their destination requires it
  - Fully vaccinated travelers do not need to self-quarantine
- Fully vaccinated travelers should still follow CDC’s recommendations for traveling safely including:
  - Wear a mask over your nose and mouth
  - Stay 6 feet from others and avoid crowds
  - Wash your hands often or use hand sanitizer

Massachusetts Travel Update

As of Monday, March 22, all visitors entering Massachusetts, including returning residents, are advised to quarantine for 10 days upon their arrival. Travelers in the following categories are exempt from this quarantine advisory:

- Travelers who have received a negative COVID-19 result on a test administered not more than 72 hours prior to their arrival in Massachusetts. Travelers may also test out of the quarantine advisory after arrival in Massachusetts, as long as they quarantine until receiving a negative test result.
- Anyone who is entering Massachusetts for fewer than 24 hours
- Anyone who is returning to Massachusetts after being out of the State for fewer than 24 hours
- Workers who enter Massachusetts to perform critical infrastructure functions during required commuting to or from work and while at work.
- Travelers who are fully vaccinated and who do not have symptoms.

You do NOT need to get tested or self-quarantine if you are fully vaccinated or have recovered from COVID-19 in the past 3 months. You should still follow all other travel recommendations.

To return to the US individuals are required to have a negative COVID-19 test result no more than 3 days before travel or documentation of recover from COVID-19 in the past 3 months before boarding a flight to the US.
