

SOUL Communities

One set of communities we created for our students include the Virtual Learning Communities. These are major-specific groups created in our learning management system. The communities seek to encourage networking, educate students on discipline-specific hot topics, and provide students with information on relevant careers and graduate programs that may be of interest to them.

The screenshot displays a list of SOUL Communities organized into several categories. Each category has a header with a dropdown arrow, a green checkmark, a plus sign, and a three-dot menu icon. Below each category are one or more items, each with a document icon, a title, a green checkmark, and a three-dot menu icon.

- Welcome**
 - Letter from the Program Director
- Announcements/Newsletters**
 - Spring 2018 Newsletter
